Stainless Nozzle

Super Energy Saving

Slim & Smart

○ Various compatibility with high energy efficiency

Hybrid water boiler

Hybrid water boiler, Novita's new water heating system, enables instantaneous heating of cleansing water when cleansing function is used, thereby saving the energy necessary for storing warm water. Innovative heater design extends the duration of warm water, which results in continuous supply of the warm water.

Stainless steel nozzle & Air bubble cleansing

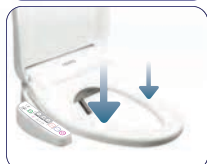

Stainless steel nozzle to which dirt and pollutants are least likely to be attached is more hygienic and solid.

Air bubbles are mixed into cleansing water offering softer feel of touch when cleansing water is sprayed, and they also increase the surface area of cleansing water ensuring perfect cleaning of the sensitive area.

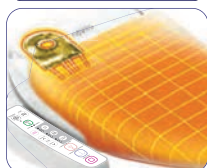

Slim design

A height of 129mm offers clean and modern interior design of bathroom.

Weight-sensing seat sensor

With the sensor detecting user's weight, any and all functions can only be operated when the seat is occupied. There is no need to worry about malfunctioning due to mischievous pranks of children or a sudden movement of user.

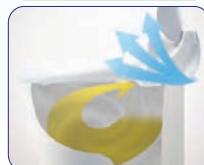

Electric circuit breaker ensuring safety

- It makes product use even safer in bathroom.
- It cuts electric power even when microcurrent leaks.

Dryer

With warm air blowing after cleansing, a perfect and fresh drying of the area can be ensured.

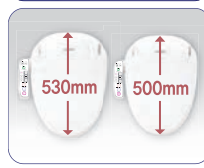

Deodorizer

Active carbon filter helps remove unpleasant odor, creating a more pleasant bathroom environment.

Compatibility with a variety of toilet bowls

- Round shaped design in rear
- In order to be compatible with rounded traditional American type toilet bowls, the products offers a design ensuring easy installation upon the American toilet bowls.

Applicable to small-sized toilet bowl

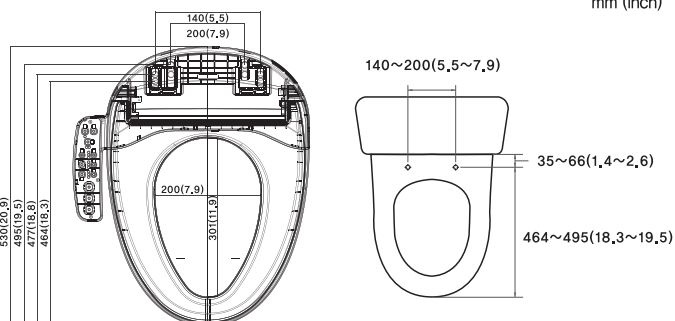

Flexible enough to be installed to compact toilet bowl with 500mm of longitudinal length.

Cleansing Function			Hygiene Function						Safety Function			Etc.
												
Cleansing Bidet	Air Bubble Cleansing	Turbo Cleansing	Stainless Nozzle	Nozzle Cleansing	Dryer	Ionic Filter	One touch Inaberration	Deodorizer	Circuit Breaker	Weight sensing Seat sensor	Soft Closing	Power Saving
